v.

**Motion to Remand Case to Public Service Commission  
For Hearing**

---

Due to the Order of the Court filed March 19, 2021, striking various documents from appellants' Designation of Matter, the appellants move this court to remand this case back to the Public Service Commission (hereinafter PSC) for a hearing where appellants can present their evidence.

**BACKGROUND**

Appellants are in this court today because the PSC denied us an opportunity to properly present evidence at a hearing to support our claims. The appellants'

complaint filed with the Commission and subsequent motions filed with the Commissioners raised serious Constitutional issues relating to the installation of smart meters. This complaint was dismissed without a hearing wherein we could properly present evidence to substantiate our claim. The constitutional issues raised were ignored/not addressed. The appellants have followed the rules of procedure to the best of their ability. The dismissal of the complaint was followed by the appellants asking for reconsideration/rehearing, and when denied, the rules provide for an appeal to this court, and that is where we are today.

### ARGUMENT

Without the evidence which we have referred to and discussed in our initial brief, appellants are at a loss as to how to proceed with our final brief. The whole point of this appeal was to get the appeals court to either order a hearing by the PSC, or rule on the evidence as presented and issue an order instructing the lower court to order Duke Energy Carolinas, LLC, to replace the meter on our property as was demanded in our complaint to the PSC.

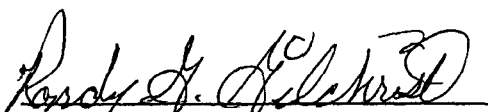

Due to the fact that appellants are again denied an opportunity to present evidence and without such evidence, our appeal is hindered, in the interests of justice and in order to not unnecessarily burden the court, we respectfully request the court for an order remanding this case back to the PSC for a hearing on the issues raised by the appellants in their complaint to the PSC. Please refer to our

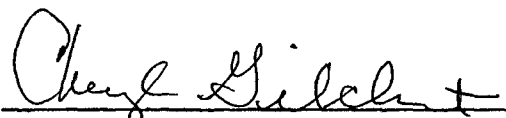

arguments in our motion which was filed February 22, 2021, to admit evidence as offer of proof.

WHEREFORE appellants respectfully move this court for an order remanding this case back to the PSC for a hearing where appellants can submit evidence to support their claim.
